Introduction

The Hong Kong Ergonomics Society (HKES) and School of Continuing and Professional Education, City University of Hong Kong is offering an introductory course on Ergonomics in March 2008, aiming to promoting the theory and application principles of ergonomics.

Hong Kong Ergonomics Society

The Hong Kong Ergonomics Society is Hong Kong's principal professional body for advancing the science of ergonomics in Hong Kong by promoting application, research and education in ergonomics for the benefit of the public.

Website: www.ergonomics.org.hk

Aims and Objectives

The overall aim and objective of this course is to equip students with the theory and application principles of ergonomics at the workplace. The course would be considered by Labour Department as satisfying the requirements of Continuing Professional Development (CPD) Programmes for the renewal or revalidation of registration of Registered Safety Officer (RSO) under The Factories and Industrial Undertakings (Safety Officers and Safety Supervisors) (Amendment) Regulation.

Upon satisfactory completion of the course, students will satisfy the educational component of membership of Hong Kong Ergonomics Society. Students can also claim CPD hours from other relevant professional institutions.

Membership of Hong Kong Ergonomics Society

The membership of Hong Kong Ergonomics Society is opened to people who have obtained approved tertiary qualification in ergonomics as determined by the Council, and has received sufficient experience (in the practice of, teaching of and / or research) in ergonomics for a period of at least TWO years cumulative equivalent.

For those obtained approved tertiary qualifications in other related disciplines as determined by the Council and completed this course, the minimum period of pre- or post-qualification ergonomics experience is three years. Member may use the title "Member of the Hong Kong Ergonomics Society", and the abbreviated letters MHKES.

Course Structure

The course comprises of 3 modules with a total of 12 meetings:

1. Physical Ergonomics
2. Environmental Ergonomics
3. Man-machine Ergonomics

Module 1: Physical Ergonomic

Aims

- to provide an overview of the principles of physical ergonomics at the workplaces, and
- to develop an understanding of risk factors associated with the work-related musculoskeletal disorders, and its intervention and evaluation strategies.

Topics Include:
